

### Attachment 1 - Successful Grassroots Grants Applications: 2020-2021

	Project Title	Organisation	Description	Grant funding approved
1	Virtual Bus Tour: Showcasing the opportunities of precision agriculture across the EP	SPAA Society of Precision Agriculture Australia Inc.	Create an online resource corresponding to a specific farm on a map referred to as a “virtual bus tour”. Develop an interactive medium to connect farmers to precision agriculture being practiced across the region, showing how it contributes to implementing sustainable agriculture practices and managing landscape health.	\$6,600
2	Iconic Birds & Wildlife Information Sign at Lispon Cove White-bellied Sea Eagle / Little Penguin / Bottlenose Dolphin	Keira Berryman sponsored by Lower Eyre Coastcare Association	Interpretive signage highlighting iconic native species that live around Lipson Cove. Applicant is working as part of Youth Environmental Council Program.	\$1,500
3	Restoring riparian plant communities along the Tod River	Navigator College	Project designed to cultivate an understanding, in students, of 'connection to country' and responsible custodianship of land . Work includes seed collection, plant propagation, and revegetation of lower reaches of Tod River (EP Blue Gum and Swamp paperbark communities). Fencing and signage will also be erected.	\$2,582
4	Drainage Work	Yeelanna to Kapinnie Railway Line Landowners	Construction of drainage works to move ponding saline water from the railway line to the Kapinnie lake system through neighbouring properties. Expected outcomes will be to reduce soil salinity and improve native vegetation.	\$3,000
5	Regenerative Agriculture Field Tour	Women in Agriculture and Business (WAB) - Charlton Branch	Educational tour for WAB members and their partners, visiting sites that demonstrate regenerative agriculture work, with specialist presenters who will lead discussion on the value and application of regenerative agriculture practices.	\$2,940
6	Better Cropping Decisions	WoTL Ltd	Interactive crop tour with two local agronomists, George Pedler and Bridget Heal. A number of trial sites and local crops will be visited.	\$3,025
7	From Little Things Big Things Grow	St Joseph’s School Port Lincoln	Field trip for students to learn about native vegetation and to connect with local landowners. Seed collection as part of trip, tree propagation using collected seedlings, for later planting on visited properties.	\$1,846
8	Brinkworth Reserve Remnant Vegetation – Managing the Threats	National Trust South Australia Friends of Brinkworth Reserve	A management plan, developed in 2017, recommended identifying and removing threats to the remnant vegetation. To assist the volunteers, who maintain the amenities, a qualified contractor will remove large trees and shrubs in line with the plan. Contribution from volunteers through additional pest plant removal works.	\$6,300
9	Coastal works at Port Neill	Port Neill Progress Association Inc.	Protect the coastal reserve by controlling environmental weeds, rationalising tracks and rehabilitating a sand-dune area.	\$6,200
10	Enhancing the coastal environment for greater environmental outcomes	Point Boston Community Corporation	Build on the work being undertaken by the community, to further enhance the coastal area, fencing and excluding rabbits from the coast, revegetating sensitive areas, highlighting threatened species and undertaking perennial weed control.	\$7,195
11	Coastal Management at Moonlight Bay	Eastern Lower Eyre Peninsula Landcare Management Committee	Managing the coastal dune system at Moonlight Bay will help repair the coastal dune and reverse the degradation that has occurred due to illegal off-road vehicles and camping. Continue work done under 2017 grant, direct seeding, plant tube stock, establish spinifex cuttings	\$7,500
12	Protecting Red Gums and Woodlands	Coulta Community Water Scheme	Eradication of feral trees, including Aleppo pines, box thorn, bone seed, <i>Rhamnus</i> and olive. Enhance and beautify the township and reduce fire risk. Protect red gums and woodlands and improve creek flow. Pest plant eradication by contractors (larger plants) and volunteers.	\$6,300

	Project Title	Organisation	Description	Grant funding approved
13	Big Swamp Wetland ( Phase 1) : Wetland Assessment Project	Big Swamp Community Centre Incorporated; for the Big Swamp Conservation Group	Big Swamp management plan, previously developed, identifies removal of pest plant control as key to improving wetland health. Project to fund pest plant removal.	\$6,300
14	Northern Coastline track closure project	The Corporation of the City of Whyalla	Work closely with the Cultana Jenkins Shackowners Association and Landscapes SA staff, to close / block off illegal 4WD tracks, as well as ripping those tracks, to help them recover / capture native seed, allowing them to return back into intact native vegetation.	\$10,000
15	Restoring Eyre Peninsula (E.P) Blue Gum Woodlands and managing saline soil.	MR & AC Hannemann	Direct-seed and plant a variety of Blue Gum community natives, including salt tolerant species, over~12km of land to re-establishment biodiversity and combat salinity. Fencing of Blue Gum site.	\$9,995
16	RAPPA Portable Electric Fencing for Sustainable Grazing & Land Management	Buckleboo Farm Improvement Group sponsored by Agricultural Innovation & Research Eyre Peninsula (AIR EP)	BFIG committee purchase of 1 RAPPA electric fencing unit to be loaned to their members to facilitate greater practice change in the area of sustainable grazing and feed utilisation.	\$4,860
17	Hillsea Station Contributing to the Restoration of Coastal Woodlands on Lower Western Eyre Peninsula	Hillsea Station Trust t/as Hillsea Station	Work in partnership with Greening Australia to restore critical habitat on land previously cleared and remnant mallee woodland damaged by fires and grazing of stock. Revegetation, fencing and pest control activities.	\$4,000
18	Connections with local beaches and Wirangu culture in Streaky Bay	Streaky Bay Children's Centre	Educational visits for school children to 3 local beaches, with education provided by local Wirangu person and EPLB. Planting activities and opportunistic site clean-up. Create a "Welcome to Country" video.	\$4,968
19	Whirlpool Wetland Recovery and Visitor Management Project	District Council of Streaky Bay	Works to improve condition of Whirlpool Wetland, including stormwater management and creation of defined access and parking, and installation of signage.	\$5,960
20	Feral Pigeon Control Program	District Council of Elliston	Purchase of a remote control ground mounted net gun for control of feral pigeons. Pigeons causing health and pest issues in town and on nearby farms. Funding conditional that this becomes a Local Government resource that all EP Councils can utilise.	\$9,060
			<b>TOTAL</b>	<b>\$110,130</b>
